Work Experience

Fresher

Projects

Dukaan – Responsive E-Commerce Landing Page ⌤
- Built a mobile-first responsive landing page for an e-commerce platform using HTML, CSS and JS.
- Designed modern UI sections (hero, product grid, navbar, footer) with interactive features.
- Implemented responsive layouts with Flexbox, Grid and media queries for cross-device support.
- Maintained a clean, structured project with semantic HTML, modular CSS/JS, and accessibility practices.

Flipkart Clone ⌤
- This project is a Flipkart clone built entirely with HTML and CSS.
- It is designed for desktop screens.
- The layout includes a homepage, product categories, and trending product sections.
- Other features include a sticky navigation bar, footer, and product grids with hover effects.
- This project is perfect for practicing frontend development skills.

Sidcup Clone ⌤
- Built a static clone of the Sidcup Family Golf homepage using HTML, CSS, and JavaScript.
- It is designed for desktop screens.
- The project includes a structured header, main section, and footer with smooth transitions and animations for visual appeal.
- This project is perfect for practicing frontend development skills.
